MICHAEL MEYER
Principal
Kathy Krol
Guidance Counselor

Dear Parents,

September _____

Each year we review all our students' academic progress. During this review students are identified that have demonstrated a need for extra attention in a subject area. This review includes classroom grades, State Assessment results, and teacher input. As you are probably aware, there is continued emphasis to evaluate and address our students' progress and performance. In an effort to meet the needs of our students and to meet the goals defined by the state, Lincoln Park Middle School has reviewed your child's academic progress and he/she has been identified as a student who could benefit from Basic Skills Instruction in: Reading/Language Arts [] Mathematics [].

Our Basic Skills teachers have developed a program that addresses the specific needs of each student, based upon the areas of weakness identified on last year's test and classroom performance. It is our hope that with this more focused approach, we will be able to meet the individual needs of your child. This will also enable your child to find greater success on the State Assessments. Your child's program is described below:

Reading/Language Arts

Math
