November 11, 2010

Dear Parents:

The Parent Advisory Council (PAC) is a group that acts as a representative body on behalf of special needs and at risk children. The PAC is comprised of parents of children in special education or supplemental education programs attending the Lincoln Park Schools who are interested in working with administrators and other parents to provide input into school programming. The committee meets twice per year, usually in the morning before school begins to:

- Develop plans for special and supplemental education in the school district
- Foster and maintain an effective communication system among the Department of Special Services, the school and the community and
- Maintain a close relationship between parents of special needs and at risk children and the Department of Special Services

This letter is an invitation to become part of the PAC. If you can volunteer to contribute your time and talents please call Connie Pirillo, in this office, at your earliest possible convenience. Our first meeting of the year will be held on Thursday December 16, 2010 at 8:30 AM in the Office of Special Services in the Lincoln Park Elementary School. The meeting will be about a half hour. A light breakfast will be served.

Our agenda will include:

- A brief orientation
- Review of the topics for future workshops
- Program Changes to Title I and ACCESS Programs

I look forward to meeting and working with you and thank you for your support.

Sincerely,

Grace Marinello
Supervisor of Special Services
