Telling Time

Learning About Time

The purpose of this lesson is for you to learn how to tell the time and how to set a clock to a specific time.

Drag the hands of the clock to show the correct time. Try and score a perfect game (10 out of 10). Unlike many sites that ignore the fact that the hour hand moves during an hour, Lil' Fingers expects you to know that at 3:30 the hour hand is half-way between the three and the four.
