What's New at the Core? – English, Social Studies, Science, Math

## Nancy Polette's Children's Literature Site

Hi! I am delighted that you have joined me at what I hope will be the "hot books" website for picture books, junior novels and juvenile non-fiction. Included are titles I believe to be among the [best of the best](#).

## That Quiz

**ThatQuiz** is a free online resource for [math practice and testing](#). Although the first tests available were most suitable for elementary school students, new areas have been added for higher grades. The site has also become popular for students who want extra math practice at home.
