VIRTUAL FIELD TRIPS

How Everyday Things are Made

Find descriptions and videos of over 40 manufacturing processes, from jelly beans and chocolate, to motorcycle engines and airplanes; these can be a great series of virtual field trips for students!

exploreMARSnow.org

It is a real possibility that we will land a crew on Mars by the year 2015. Explore an interactive Mars habitat now.

Journey into Amazonia

Amazonia is disappearing:

2588160 square miles gone and counting.

With lesson plans to support this PBS series, you can explore Amazonia, the plants and animals and its disappearance. Includes an interactive "game" allowing students to become an Amazonia explorer.
