Internet Collaborations Around the World

March 15, 2004

Educational Web Adventures (Eduweb®) develops award-winning online learning activities about art, history and science. Our mission is to create exciting and effective learning experiences that hit the sweet spot where learning theory, Web technology, and fun meet.

Established in 1996, the **SchoolWorld Internet Education** site was developed with the basic concept that our schools need to be afforded with the opportunity to participate in a wide range of programs and projects, not always available locally. Additionally **SchoolWorld** offers the opportunities for direct interaction with schools from around the world and provides a platform for using the Internet for educational enhancement.

The Odyssey is an Internet-based non-profit. Our mission is to **promote global awareness** among youth and involve them in activities to **create positive change** in the world. Our current major project, the World Trek, began in January of 1999 and takes students on an otherwise impossible field trip - **a two-year Trek around the world.**
