BEST of HISTORY WEB SITES

<http://www.besthistorysites.net/index.shtml>

Best of History Web Sites is an award-winning portal created for history teachers, students, and general history enthusiasts. The site now features links to K-12 history lesson plans, teacher guides, activities, games, quizzes, and more throughout its pages.

This is a wonderful web site about world history. The foundation of this site is the multimedia exhibits. You might ask students to pretend that they are taking a vacation on a time machine. Ask them to select ten images from HistoryWiz's multimedia exhibits and then write a story about their vacation travels using the pictures as illustration. Students would have to conduct research on the periods and regions in order to effectively write.
