

# Busy Teacher Resource—K-2 Special

February 10, 2003

<http://www.tinyplanets.com/>

Cute and professionally done. Full of the kind of flash that kids like. Online activities are short and simple. Help is located in the upper right corner of every page. Activities focus on Technology, Nature, Light and Color, plus a few other activities around the Home planet.

**Grades: Early Childhood (K-2), Elementary**

"Tiny Planets™ has been co-produced with Sesame Workshop, best known as creators of SESAME STREET™. It follows the adventures of the curious and irresistible duo Bing and Bong as they travel through their tiny universe on their space-age fluffy white sofa. It will shortly be aired on TV internationally as a series of sixty-five episodes of charming and funny stories designed for three to six year olds. "

A Pepper's Ghost Production, Kingston-upon-Thames Surrey, UK
