

Busy Teacher Resources

MAY 12, 2003

<http://www.ebird.org/>

eBird, a project developed by the Cornell Lab of Ornithology and the National Audubon Society, provides a simple way for you to keep track of the birds you see anywhere in North America. You can retrieve information on your bird observations, from your backyard to your neighborhood to your favorite bird-watching locations, at any time for your personal use. You can also access the entire historical database to find out what other eBirders are reporting from across North America.

A Bird in the Hand –

All you ever wanted to know about birds.

A WebQuest for grades 3-4 Science/Language Arts
